

Mohanad Kalloub

Mid-Level Software Engineer (3+ YoE) | React Native, React.js, Next.js, Node.js

Gaza, State of Palestine | +972-595372607 | kalloubmohanad1@gmail.com | [LinkedIn](#) | [Portfolio](#)

CAREER PROFILE

Mid-Level Software Engineer with 3+ years of experience building and maintaining web and mobile applications for early-stage startups and mission-driven organizations. Primarily focused on mobile and frontend development, with hands-on experience integrating backend services and contributing to end-to-end feature delivery across domains such as eCommerce, dashboards, and content-driven websites.

Experienced in working with React Native, React.js, and Next.js to deliver reliable, user-facing features, while collaborating with designers, backend developers, and product stakeholders in remote, cross-functional teams. Comfortable translating business requirements into maintainable technical solutions, with attention to performance, code quality, and user experience.

TECHNICAL SKILLS

- TypeScript. JavaScript. PHP.
- React Native. Expo. Redux Toolkit. React Navigation. Performance Optimization.
- React.js. Next.js. React Query. React Hook Form. Restful APIs. GraphQL. Jest.
- HTML. CSS. SCSS. Tailwind CSS. Material UI. Bootstrap. Styled Component.
- Node.js. Express.js. Nest.js.
- Web Socket. Web RTC.

PROFESSIONAL EXPERIENCE

Mid-Level Mobile Engineer

Oct 2025 - Present

Freelance – Remote | Gaza, Palestine

Cross-platform React Native developer delivering production-ready mobile applications with scalable architecture, optimized performance, and consistent behavior across iOS and Android.

- Built and maintained React Native apps using Redux for predictable state management.
- Built and maintained React Native apps using Redux for predictable state management.
- Optimized rendering and FlatList usage to enhance app performance.
- Implemented structured form handling and validation using React Hook Form.
- Worked independently in a remote environment to translate requirements into functional mobile features.

Mid-Level Mobile App Engineer

Jul 2025 - Oct 2025

Freelance @ BeHome App, Remote | Gaza, Palestine

Engineered core features and performance improvements for a production health & wellness app, with robust state management, API integration, smooth navigation, while collaborating remotely with the product team.

- Developed core features for a health and wellness mobile application using React Native and Redux.

- Implemented interactive navigation flows using React Navigation.
- Implemented interactive navigation flows using React Navigation.
- Integrated backend APIs using Axios to enable real-time data synchronization between the app and server.

Front End Engineer

Jan 2024 - May 2025

Freelance – Remote | Gaza, Palestine

Built server-rendered web applications using Next.js and TypeScript, translating product requirements into scalable, production-ready features.

- Built and maintained modern web applications using Next.js and TypeScript with server-side rendering (SSR).
- Delivered consistent, responsive UI designs across devices by using Tailwind CSS and reusable layout components.
- Collaborated remotely to translate design and business requirements into scalable, production-ready web features.

Front End Engineer

May 2023 - Oct 2023

Dash.ps | Gaza, Palestine

Contributed to building and improving web and mobile features for e-commerce platforms within a fast-paced agile team, focusing on performance, scalability, and checkout optimization.

- Developed web and mobile features using React.js, Next.js, and React Native, managing application state with Redux Toolkit.
- Integrated backend services via REST APIs and GraphQL, leveraging React Query for efficient data fetching and caching.
- Enhanced e-commerce checkout flows and payment integrations (PayPal, JawwalPay, PalPay) to improve user experience and transaction reliability.
- Improved code quality and maintainability by applying TypeScript strict mode, linting standards, and component-based architecture best practices.

LANGUAGES

- **Arabic:** Native.
- **English:** Advanced.

EDUCATION

Bachelors in Information Technology - Multimedia & Web Development

Sep 2020 - Jul 2024

Islamic University of Gaza – Gaza, Palestine
